Parent Pay

As reported last week, we now have Parent Pay up and running in school. We are moving towards a cashless system in school. This will free up Admin Team time and lead to direct savings—so we can then ensure that the priorities for our school spending in these harder times are directed towards resources that directly benefit our children.

I know some of you have accounts as you have other children

who are in secondary schools operating Parent Pay. All parents have been sent information detailing how to set up an account. I have seen that payments for Care Clubs have already started to be paid in this way. All payments for school activities, for example trips, will move online.

We want to make life as easy as possible for all our families and so if you need any support in setting up accounts or have any questions, please do

not hesitate to contact the office team who will be only too happy to help.

Well done to all our Year 2 children who have been working on their SATs this week. It is always great to see how far children have come in their learning since September.

Wibsey Primary— A Community of Learners

PE Kit

As those of you who were in the playground at the end of last week will know, we sometimes have to conduct a school evacuation if the alarm is activated. Children regularly practice this and it went very

smoothly. We do though need all children to have pumps with PE kit—otherwise children would be outside bare-foot in an emergency. Our PE kit consists of white T-shirt, black shorts and black pumps.

Attendance

This week's highest attenders are Class 1.1 with 100% and 5.3 with 99.3%

CONGRATULATIONS!
