

## **Wibsey Primary School**

### **Statement of procedure for dealing with allegations of abuse against staff**

The Governors and staff of Wibsey Primary School are committed to ensuring the safety and security of all children.

The following Policy should be read in conjunction with the Safeguarding Policy.

Where a school employee or volunteer is subject to an allegation of harming a pupil/student through their actions, be that physical or emotional, the Bradford Safeguarding Children's Board procedures on the Management of Allegations Against Staff must be followed. Available at [2.6 Allegations Against Persons who Work with Children](#).

In the first instance, management must seek the advice of Jennie Sadowskyj and must not attempt to carry out any investigation before receiving advice. It should be noted that where there is a child protection concern relating to a Supply Teacher then there is a responsibility on the school to investigate the matter under the same arrangements as apply to permanent staff.
