Issue 22

8th February 2019

Parent/  
Carers  
Evening  
Tuesday 5th  
March.

You will have seen from the media that there have been a number of approaches to children in the BD4 area. It is timely to please remind your children what to do in those circumstances. We would always encourage children to go to a place of safety if alone. This would most likely be back into the school building.

Enjoy the weekend

## News and Views

There has been a lot of interest and discussion created by the work completed on Internet Safety Day this week. Children have been talking to the digital leaders and congratulating them on their knowledge and skill in delivering 2 whole school assemblies after only a very short introduction period in post.

As parents and carers you may think that Internet Safety figures

feature rather a lot on the Newsletters sent out by school. The reasoning behind this is that the rate at which social media, apps and other developments take place is so fast paced. As a school we are dealing with some horrendous out of school issues where children have been in danger.

We will continue to promote internet safety *each and everyday* and we rely on you working with us, attending the police workshops we hold, and checking on our dedicated safeguarding area on the website,

where you will also find information on the front page. If you do one thing this weekend please, please check any device your child uses to access the internet, be it a game, tablet or phone, and check privacy settings and age restriction, browsing histories and apps.

### This weeks attendance champions

Foundation R3 with **95.9%**

KS1 1.2 with **96.9%**

KS2 Lower 4.3 with **99.3%**

KS2 Upper 6.2 with **96.9%**

## Wibsey Primary—A Community of Learners

### Year 4 at Tropical World

As part of their unit of work on rainforests, Year 4 have had a wonderful time at Tropical World in Leeds. With superb behaviour and curious and inquisitive attitudes, it was a great day where

children were able to see all sorts of exotic creatures and learn more about how they adapt to their surroundings.
