Technology

If you are anything like me the lightning speed at which technology is evolving can be very hard to keep up with.

There have been some amazing developments which have led to amazing advancements and improvements such as better life saving operations and increased vehicle safety. We do know as a school, and you will know as parents, that there is also a darker side to some technology.

With the rise in smart phones many of our children have quick and easy access to the internet. This can be hard for you to police as parents—but it has to be done. An example would be around password protection. Do you know your child's passwords? Do you check your child's phone or other internet usage? Are

your safety filters and parental locks in place?

To support you, School will continue to offer regular briefings from West Yorkshire Police, and we will continue to provide updated information on our website.

Only children walking home alone should be bringing a phone into school. This must be handed in daily and not used at all on the premises—especially cameras.

Have an
amazing
weekend

Mr N M Cooper

**Nigel M.
Cooper**

Headteacher

Wibsey Primary— The Village School

I have been jointly observing lessons this week with members of staff. I observed some science lessons with Mrs Scott and the children talked really well about what they had been doing. Encourage your children to explain what they have been doing this week.

We have had a couple of cases of our old perennial problem—head lice. Please take a moment this weekend to check your children. Remember all long hair, boy or girl is to be tied back.

This week's attendance champions

Foundation R2 with **97.7%**

KS1 1.1 with **98.3%**

KS2 Lower 3.1, 4.1 & 4.2 with **97.7%**

KS2 Upper 6.3 with **98.6%**
