

# Extended Project 'Our Environment' Week 4

Year 5 Home Learning

Wibsey Primary School

# Day 1 – Endangered Animals

Look at the animals below – these are some of the most **endangered** (animals at risk of becoming **extinct**) animals in the world. Your task is to research how your animal has **evolved** (changed over time) to suit the environment where they live. Create an information leaflet about how your animal has changed.

Think about:

The climate, **terrain** and weather in their environment.

The food available to them.

The **threats** from humans. What are humans doing that could hurt these animals?

Tiger

Amur Leopard

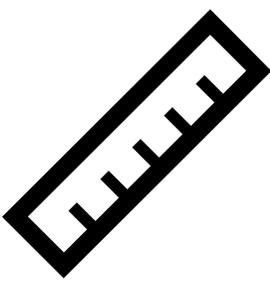

Orangutan

Sea Turtle

# Day 2 – Upcycling

‘Upcycling’ was the Cambridge Dictionary’s Word of the Year for 2019! It is where you make new furniture or objects out of old or used things – helping us to reduce what we waste.

We’d like you to choose something around the house that you don’t really use anymore – this could be anything from an old plastic bottle, tin can, t-shirt or table! Have a think about how you could **transform** this old object into something new and useful – there are some ideas on the next slide.

In your exercise books, write a set of instructions for how you would change your object.

**Challenge** – If you could have more time and different tools to change your object, what would you do differently and why?

This plant pot is made from the bottom of a 2 litre plastic pop bottle. It has then been decorated.

Can you guess what this magazine holder was originally?

It's an old cereal box that has been decorated!

These pencil pots have been made from old tin cans.

# Day 3 – Environmental Sounds

Think carefully about the sounds you can hear, both in your home and on your street.

Use Isle of Tune - <https://www.isleoftune.com/> - to recreate these sounds as a song.

**Challenge** – Can you think carefully about the **tempo** and **rhythm** of the sounds to create a carefully constructed beat?

# Day 4 – PE

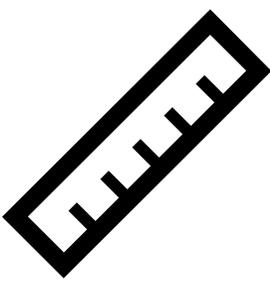

Please complete the following videos from Joe Wicks. Remember to warm up and cool down, just like we would in PE!

Active 8 - <https://youtu.be/pLuM18p9zbM>

Active 8 - [https://youtu.be/TUp2\\_VAHlrl](https://youtu.be/TUp2_VAHlrl)

Active 5 - <https://youtu.be/14ou-fplEi4>

# Day 5 – Design a ‘green space’

Your task is to re-design Wibsey Park so that it is **accessible** for both children and adults. Think carefully about what you would like to include.

What will people use the park for?

What could you include to make it fun for families?

How can you design your park to protect the wildlife that live there already (both on land and in water)?

There is a template you can use for your ideas on the next slide.
