Google Classroom

Your children have been spending ICT time learning how to use Google Classroom. Many will have had a homework task this week using GC.

From next week all homework will be done via GC where possible.

I am sure there will be teething problems and technical hurdles to overcome, but this should really help in the event of the need for isolation or closures. Keep an eye on the App for messages.

Christmas Lunch

Have you responded to the Children's Christmas Lunch sign up on the App? If not, please book asap. We are doing a full,

traditional Christmas lunch for every child from YR upwards in the w/c 14th December.

Christmas Cards and Presents

Sadly we can't accept any cards or presents into school this year. This includes pupil to pupil or to staff. One of the downsides I'm afraid. On a positive note we are in the final stages of organising our online Christmas productions for you, and to make it special for children we are organising movie and ice-cream afternoons in the place of parties and a whole school online pantomime visit. Details to follow.

Team Wibsey—Stronger when working together

Covid Update

As we will all now be aware, Bradford falls into Tier 3 restrictions when lockdown ends on Wednesday. This is the toughest tier. We need you to follow the rules really carefully out of school to avoid

outbreaks and infections coming into school. I am particularly concerned about the loosening of restrictions at Christmas as we are concerned about a spike in the New Year.

Please maintain

distancing outside and around school when dropping off/picking up (you're doing a great job) and inform us straight away when you have any tests or cases in your household.

Look out for the **Google Classroom** info.
