## Reflection from Mr Cooper

*I have been thinking about the need for foodbanks and how they are used. I know many people have different views on this. The bottom line for me is that people find themselves in a hole for lots of reasons, but that children have no control over this and yet they suffer as a result.*

*The cases I have been involved in are all desperate and real.*

*I want to be part of a Wibsey Community that shows compassion and care. I want our children, in need or not, to know the joy of Christmas and to grow up participating as citizens in a civilised society.*

### Year 5 Art

Year 5 children have been working in their sketch books. They linked their art skills work to their topic looking at Haworth— making use of the school's VR Headsets.
