

12th June 2023

Dear Carers and Parents

Hot weather

Whilst not as bad as our July weather last year it is still going to be an uncomfortable week.

I have been around school today and the procedures we have put in place for hot weather seem to have worked well. Children are being actively encouraged to drink water through the day and so please continue to send your children with their water bottles.

We will monitor PE and playtimes and will limit these and outdoor time if needed as the week goes on.

I would encourage continuing with cool clothing tomorrow. Please feel free to use white t-shirt and black shorts PE kit if that helps you – my knees will probably be out for their annual airing if I wear my shorts. Ties are definitely not needed this week.

Check list

- Hat
- Sunscreen applied (not to be brought into school)
- Water bottles

Keep up the good work, keep hydrated and shaded, keep the sunscreen and hats on for the journey to and from school, and I will see you all tomorrow.

Yours sincerely,

Mr N. M. Cooper

Headteacher
