Year 5 visit to Drax Power station

The first group of Year Five children have been on their fieldwork visit to Drax power station on Monday.

They are looking at the process of producing electricity and following the generation story from start to finish at Drax, a bio-mass plant. Our children will also look at some of the stories surrounding bio-mass and the controversy that has arisen when

comparing emissions from these facilities and former power stations fuelled by coal. This will be part of developing children's critical thinking skills.

Bonfire/Firework safety

As we approach bonfire night and fireworks appear in the shops, please have a conversation with your children about staying clear of inappropriate firework use. We know there are unscrupulous suppliers, where these can get into the hands of older children and so your children need to know the dangers.

Wibsey Primary— The Village School

A **HUGE** thank you to our wonderful office team who worked so hard to sort out consultation evening after the appointment booking system crashed. Not only were they on to the

company every few hours, they then spent hours and hours sorting out the back up paper system as well as keeping on top of all the day jobs they have to do. We all appreciate their hard work.

The class with best attendance this week was 1.1.

They recorded an attendance rate of 100% and will be seeing Mr Cooper next week to have some additional playtime awarded. Well Done.
