YN muddy puddles

The outdoors is a place of excitement and learning across school—but no more so than in the early years. The children in Nursery were joyful the day they pulled their wellies

on and went exploring the muddy puddles, looking

at patterns, effects, colours, movement, all the while developing their language skills by talking about what they were seeing. There are so many of these moments that can be captured outside of school and that cost

you absolutely nothing—just the time to take a walk.

We had a talented group of children, our KS2 flautists, playing their flutes in the lower school assembly this week. Musical development is pushed heavily at Wibsey. We have a few spaces available in the choir if you would like your child to join. They sing at some of the local events in Wibsey.

Wibsey Primary— The Village School

As the first half of the Autumn Term draws to a close it's a good time to reflect on all the hard work that has gone on. I say a thank you to your children and all our staff. It was great to have you in school on consultation evening this term, and

amongst other events, Y3 parents in for the BLP assembly. Going forwards we will be holding Year Group assemblies for all families. **School reopens on Monday 4th November**. Children in lines by 8.50am please.

The class with best attendance this week was 1-1 .

They recorded an attendance rate of 97% and will be seeing Mr Cooper after half term to have some additional playtime awarded. Well Done.
