Planetarium Workshop

Dear Parent/Carer,

As an integral part of Year 5's work in Science, it is planned to host a space-themed, planetarium workshop on **Friday 21st November 2025**.

The workshop will be hosted by Aurora Planetarium. Aurora Planetarium is an inflatable dome-filled experience to showcase the Solar System and Space beyond our small planet in an immersive theatre environment, whilst inspiring minds in the process. The workshop will be hosted in school on the date above and will commence within normal school hours.

There is a **£4.70 charge** for the workshop, which includes all materials and resources. We have got this workshop for half price this year. This needs to be paid via Parent Pay by **Friday 21st November 2025**.

With thanks for your continued support,

Mrs Patankar, Mrs Baldwin and Miss Holland.
