Dear Parent/Carer,

As an integral part of Reception's work about minibeasts and their habitats, we have planned for ZooLab to visit the school with a range of minibeasts for the children to experience first-hand. This will take place on **Monday 11th May 2026**.

This is a fantastic opportunity for the children to see and interact with different minibeasts and learn about their characteristics, including what they eat and where they live. The experience will take place during the school day, so children should wear their school uniform and arrive as normal.

To continue to provide rich learning opportunities for our children, there is a charge of **£6.65** to cover the cost of the experience. Payment can be made via ParentPay, and the deadline for this payment is **Thursday 30th April 2026**. Please note that we will need to cancel the experience if insufficient payments are received. We would like to highlight that parents have not been asked to contribute towards any trips or visits so far this year, and this will be our only planned experience of this kind.

Thank you for your continued support.

Kind regards,
Miss Meadowcroft, Miss Shaban and Miss Huddleston
